

The new outline details the path that a user would take based on their individual needs.

The layout includes the additional search features under each search category.

User Persona #1 – Would either use the search option for either Medical Provider or Community Health Centers

User Persona #2 – Would follow the path to search for a Behavioral/Mental Health Provider by either City, Zip, or Specialty

User Person #3 – Has already gone through the Search tool and would like to provide us with information about a Provider he could not locate in our search tool but would like to recommend to others.
